## Order Terminal OT-200

### The new dimension of ordering

The functionality and stylish appearance of the OT-200 is primarily designed to the hospitality environment. It has a compact size, lightweight design and a high durability.

Orders can be transmitted directly from the OT-200 to the bar or kitchen via WiFi i.e. employees work more efficient instead of walking back and forth.

The OT-200 is a cost effective handheld terminal, which will enhance any hospitality solution and can be used in many other business environments as well.

#### **Special Features:**

- Stylish and compact
- Lightweight design
- Large 4.3" widescreen touch LCD
- Windows™ Mobile 6.5 Professional
- WLAN, bluetooth
- Ruggedized to IP54 and 1.2m drop test

#### **Optional:**

- MSR
- RFID
- Scanner (1D/2D)
- GPRS/EDGE

## Order Terminal OT-200

### Technical data
